TRANSMITTAL OF BUILDING 123 HYDROGEOLOGIC CHARACTERIZATION
-SAMPLING AND ANALYSIS PLAN - KAD-043-98

Enclosed please find seven copies of the draft final report dated June 8, 1998 entitled: Sampling and Analysis Plan for the Hydrologic Characterization of Individual Hazardous Substance Sites (IHSS) 121 and 148 at Building 123. Please forward copies of this plan to the regulatory agencies for their review, comments, and/or approval.

This plan provides monitoring for well installation and groundwater sampling at Building 123; in support of an Environmental Restoration ranking of the IHSS and post Decommissioning & Decontamination monitoring. Kaiser-Hill, L.L.C. requests that DOE, Colorado Department of Public Health and Environment, and Environmental Protection Agency provide an expedited review of this report so that field activities can be conducted concurrently with soil sampling activities now in progress. Comments are requested no later than June 17, 1998. The plan will be finalized immediately following comment receipt and resolution.

Please call Kent Dorr at extension 6034 with any questions.

Kent Dorr
Project Manager
